Dear Maria, I am writing to express my strong interest in the Business Analyst position at BlackHills Business LLC. As graduate of IIT (ISM) Dhanbad with deep expertise in the MERN stack (MongoDB, Express, React, Node.js), Machine Learning, and DSA, I offer a powerful combination of business insight and technical proficiency. This background allows me to translate business requirements into feasible technical specifications and serve as an effective bridge between stakeholders and development teams. My hands-on experience building projects like Swiggy and LeetCode clones has sharpened my ability to deconstruct complex business logic and map user journeys—skills essential for this role. I am confident that my analytical and technical capabilities would be a valuable asset to your team at BlackHills Business LLC. Thank you for your time and consideration. I look forward to discussing this opportunity with you.
